This is a listing of the organizations that responded to a request from DSHS for Letters of Interest (LOI). By submitting a LOI these organizations are not bound or required to respond to the RFP, nor are they limited to the regions for which they have indicated an interest. It should also be noted that organizations that did not submit a LOI, may still respond to the RFP if they so desire. This LOI was solely to aid DSHS in our effort to properly schedule sufficient time for evaluations of responses to the RFP.

If you or your firm desires to contact any of these organizations regarding potential subcontracting opportunities, it is recommended that you contact their representative at the email address provided above.
